DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(b) because they are incomplete. 37 CFR 1.83(b) reads as follows:

When the invention consists of an improvement on an old machine the drawing must when possible exhibit, in one or more views, the improved portion itself, disconnected from the old structure, and also in another view, so much only of the old structure as will suffice to show the connection of the invention therewith.

2. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

It is noted that the new sheet of drawing filed on 6/13/2006 contains only 7 sheets of drawing instead of 13 sheets

of drawing as originally filed. Therefore, Figures 8 to 13 as described in the specification are missing from the drawing. Accordingly, a new set of drawing should be re-submitted and should contain 13 Figures as described in the specification. Also note that each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

REASON FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The instant application directs to a non-obvious feature improvement over the invention described in cited prior art, particularly to US 5,214,514 issued to **Haberkern** and US 2004/0204194 issued to **Akai** for providing a stereo sound structure to a portable terminal. The non-obvious feature comprises a main speaker in combination with two side speakers located in opposite directions of a hinge axis, and wherein the structure of hinge further comprises features as specified in independent claims 1, 10, 11, 16, 19 (i.e, a screw structure as recited in claims 1, 10, 11, a resonance blocker as recited in claims 16, 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on
